

XUZHOU (COLAR) WANG

Philadelphia, PA | xuzhou.wang.upenn@gmail.com | linkedin.com/in/xuzhou-wang

EDUCATION

UNIVERSITY OF PENNSYLVANIA <i>Master of Science in Systems Engineering</i>	Philadelphia, PA Aug. 2025 – Aug. 2027 (Expected)
• Relevant Coursework: Marketing Analytics, Simulation Modeling, Decision Models, Strategic Management	
UNIVERSITY OF NOTTINGHAM <i>Bachelor of Science (Hons) in Financial Mathematics</i>	Nottingham, UK Sep. 2022 – Jun. 2025
• Award: International Orientation Scholarship (Top 5%) • Relevant Coursework: Financial Economics, Risk Management, Statistical Inference, Game Theory	

EXPERIENCE

KYRATON HOME (UK) LTD. <i>Co-Founder & Chief Strategist</i>	London, UK Jun. 2023 – May 2025
• Go-to-Market Strategy: Scaled monthly sales to 100+ units by orchestrating a data-driven GTM strategy utilizing keyword A/B testing and competitive landscape analysis to identify high-value market niches • Marketing ROI: Boosted Advertising ROI by 20% by spearheading a targeted customer segmentation initiative that optimized ad spend allocation across high-converting behavioral cohorts • Operations Strategy: Improved working capital efficiency by 15% by architecting a predictive inventory management model that aligned supply chain schedules with dynamic demand forecasts	
KITCHENSURVIVOR (AI IOS APP) <i>Solo Founder & Product Lead</i>	Philadelphia, PA Nov. 2025 – Present
• Product Strategy: Achieved 100+ App Store ratings and a 25% increase in engagement by translating qualitative focus group insights into actionable product roadmap features addressing critical user friction • User Experience: Enhanced retention rates by conducting trade-off analysis between model performance and latency, leading to a strategic decision to implement a hybrid Edge-Cloud architecture • Lifecycle Management: Defined success metrics for app stability and led the engineering execution to eliminate battery drain issues, resulting in significantly improved user satisfaction scores	
CHINA GALAXY SECURITIES CO., LTD <i>Quantitative Research Intern</i>	Shanghai, China Jul. 2024 – Sep. 2024
• Investment Strategy: Delivered a 50% simulated annual return by conceptualizing and backtesting a hybrid trading strategy that synthesized market volatility signals with deep learning predictions • Risk Management: Achieved a 30% uplift in forecast stability by establishing rigorous validation protocols and regime-aware stress testing to mitigate downside risks in volatile market conditions • Strategic Data Infrastructure: Streamlined the decision-making process by designing a scalable financial data pipeline that reduced information latency for real-time investment analysis	
UNIVERSITY OF PENNSYLVANIA <i>Project Lead – Campus-Scale Img2GPS Localization</i>	Philadelphia, PA Oct. 2025 – Dec. 2025
• Product Roadmap: Directed the product vision for a high-precision geolocation system, prioritizing architectural improvements that resulted in a 29.7% reduction in localization error • Strategic Trade-offs: Accelerated model convergence by 2.5x through rigorous cost-benefit analysis between computational resource allocation and high-fidelity spatial accuracy requirements • Resource Optimization: Enabled deployment in resource-constrained environments by defining a stage-wise model adaptation strategy that reduced parameters by 96% without compromising core utility	

ADDITIONAL INFORMATION

Strategy & Analysis: Market Research, A/B Testing, Financial Modeling, GTM Strategy, KPI Design
Data & Visualization: Tableau, SQL (Advanced), Python (Pandas/Scikit-learn), Excel (VBA), JIRA
Languages & Interests: English (Professional), Mandarin (Native); Competitive Badminton, Hip-hop Dance
